THE C-O-H-S GASEOUS SYSTEM, PART I: COMPOSITION LIMITS AND TRENDS IN BASALTIC CASES

TERRENCE M. GERLACH and BERT E. NORDLIE*

Laboratory of Experimental Petrology, Department of Geosciences,
University of Arizona, Tucson, Arizona 85721

The title of this paper (April 1975, p. 353-376) should read "The C-O-H-S gaseous system, Part I: Composition limits and trends in basaltic gases".

STRONTIUM ISOTOPE GEOCHEMISTRY OF LHERZOLITE INCLUSIONS AND HOST BASALTIC ROCKS, VICTORIA, AUSTRALIA

E. JULIUS DASCH* and DAVID H. GREEN**

In this paper (April 1975, p. 461-469), the captions for figures 2 and 3 were reversed. They should read as follows:

P. 465. Fig. 2. $\text{Sr}^{87}/\text{Sr}^{86}$ versus $\text{Rb}^{87}/\text{Sr}^{86}$ for a whole-rock sample and separated minerals from lherzolite nodule 2905.

P. 467. Fig. 3. $\text{Sr}^{87}/\text{Sr}^{86}$ versus $\text{Rb}^{87}/\text{Sr}^{86}$ for 6 samples of lherzolite-bearing basaltic rocks, Victoria, Australia.
